Senior Data & Analytics professional with 6+ years building BI platforms & ML systems across financial services and gaming. **End-to-end ownership record:** propensity models across 39M+ accounts (identifying 57% true upgrader), real-time BI for \$450M+ AUM operations, 47% CPA reduction through targeted segmentation. Python · SQL · Power BI · Redshift · Snowflake · SSMS · Power Automate.

EXPERIENCE

Affine Analytics | Bengaluru, India, June 2025 – Present

Senior Associate - Business Analyst

- Built and upgrade **propensity scoring framework** across 39M+ accounts for a global gaming platform, delivering a **90-threshold sensitivity-precision matrix** enabling the client to identify & **prioritize 57% of all true upgrader** for targeted campaign outreach.
- Formulated log-linear regional demand forecasting model, identifying an **85-percentage-point spread in regional upgrade rates (4.5% - 90%)** and enabling region-specific inventory positioning for commercial and supply chain teams.
- Reduced customer acquisition cost by **47% (from \$18.52 to \$9.90 CPA)** by suppressing 62.5% low-propensity segments from outreach campaigns while maintaining overall revenue performance.
- Led a **5M-account behavioural segmentation initiative**; top 2 clusters (25% of accounts) drove 65% of platform revenue, informing prioritisation of retention and content investments toward highest-LTV segments.
- Architected a Snowflake-based enterprise data warehouse by standardizing fact and dimensional logic across disparate source systems; built ADS reporting models with optimized SQL pipelines and validation frameworks, **improving reporting scalability, data consistency, and enterprise analytics performance by 40%**.

Financial Fabric LLC | Kolkata, India, October 2019 – June 2025

Senior Data Analyst (promoted from Associate Data Analyst, Oct 2019)

- Orchestrated a **portfolio intelligence platform** for a \$450M+ multi-PM fund — integrated 10+ data sources via Python and SQL Server with audit-ready staging, fact, and dimension layers ensuring full referential integrity and data lineage.
- Built a **near real-time Intraday P&L dashboard** via Azure Data Explorer, Blob Storage, Power Automate, and Power BI; reduced portfolio monitoring effort by **70%** and improved intraday risk response time by 40%.
- Delivered **20+ Power BI dashboards** with DAX, Power Query, KQL, and RLS for 10+ PMs; optimised ETL pipelines to cut retrieval latency by **70% and preparation effort by 80 %**.
- Developed **50+ SQL assets and automated workflows** via Power Automate, eliminating 90% of manual effort and ensuring 100% production data accuracy.
- Collaborated with **US investment clients** on KPI and data model design (+25% model accuracy); mentored 6 analysts, improving team proficiency by 40% and reducing errors by 50%.

SKILLS

Languages & Query: Python (pandas, NumPy, scikit-learn, matplotlib) · Advanced SQL · Kusto Query Language (KQL) · DAX

BI & Visualisation: Power BI (Power Query, RLS, Incremental Refresh) · Matplotlib · Seaborn

Cloud & Databases: Amazon Redshift · Snowflake · Azure Data Explorer · MS SQL Server · MySQL

ML & Modelling: Logistic Regression · Log-linear Regression · K-Means Clustering · Propensity Scoring · Demand Forecasting

Data Engineering: ETL/ELT Design · SQL Triggers · Power Automate · Azure Blob Storage · Data Governance

EDUCATION & CERTIFICATIONS

MSc in Economics: University of Calcutta (2017-2019)

BSc in Economics (Hons): Seth Anandram Jaipuria College (2014-2017)

Advanced Certification in Data Science & Machine Learning: E&ICT Academy, IIT Guwahati · Accredian (Sep 2024)
